## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## Status

- 1) ☒ Responsive to communication(s) filed on 29 October 2007.
- 2a) ☐ This action is FINAL. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 10/29/07 has been entered.

### ***Response to Arguments***

Applicant's arguments, see Remarks, filed 10/29/07, with respect to the rejection(s) of claim(s) 1 and 5 under 35 U.S.C. 103(a) have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made in view of EP 1049180.

### ***Claim Rejections - 35 USC § 103***

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1 and 5 are rejected under 35 U.S.C. 103(a) as being unpatentable over Applicants Admitted Prior Art (AAPA) in view of EP 1049180 hereinafter Komatsu.

As can clearly be seen in figure 3 of the instant application and described in applicants' background section, AAPA teaches the instantly claimed invention except for

the insulating member that is interposed between a separator and a single side exposed current collector part of said electrode group.

As seen in figure 25, Komatsu teaches an electrode group for a battery comprising an insulating tape having an adhesive disposed thereon 87 (i.e. insulating member) interposed between the separator 95 and adhered to an exposed single side of the current collectors 82 and 90 in an area of the wound electrode group around the lead terminals 86 and 92 (paragraphs [0158]-[0160]).

At the time of the invention it would have been obvious to one having ordinary skill in the art to include an adhesive insulating tape interposed between the separator and adhered to an exposed single side of the current collector AAPA as taught by Komatsu in order to provide additional insulative protection around the lead terminals at the circumference of the wound electrode group to prevent short circuiting of the electrode group within the battery thereby increasing the battery life and reducing any possible explosion hazards from the short circuit igniting hydrogen that is created during discharge of the battery.
